

LIN HUTAFF'S PINEHURST REALTY GROUP

As a member of the Board of Directors of St. Joseph of the Pines, I am proud to support the SJP Foundation.

St. Joseph of the Pines began as the first hospital in Moore County. After seeing the need for healthcare in this area, Bishop Vincent Waters of the Diocese of Raleigh purchased the shuttered Pine Needles Inn in 1948 and converted it into a much needed hospital, run by the Sisters of Providence.

Serving people of all races, nationalities and income levels, the initial operations were heavily supported by donations from the Community. Through the SJP Foundation, we are continuing that history.

SJP currently operates in seven locations, in addition to home health care and a Rural Mobile Health Clinic:

- 2 Continuing Care Retirement Centers: Belle Meade and Pine Knoll
- 4 Providence Place Communities offering affordable independent living to older adults in Aberdeen, Carthage, Red Springs, and Robbins
- PACE Program (Program for All-inclusive Care for Elders) in Fayetteville

PLEASE SUPPORT THIS VERY WORTHY CAUSE!
